ITALIAN INDUSTRY CONTINUES TO SURGE • U.S. & ASIAN ORDERS UP DRAMATICALLY •

80-FOOT TO 89-FOOT SEGMENT UP 59% • OPEN YACHT MARKET UP 256%

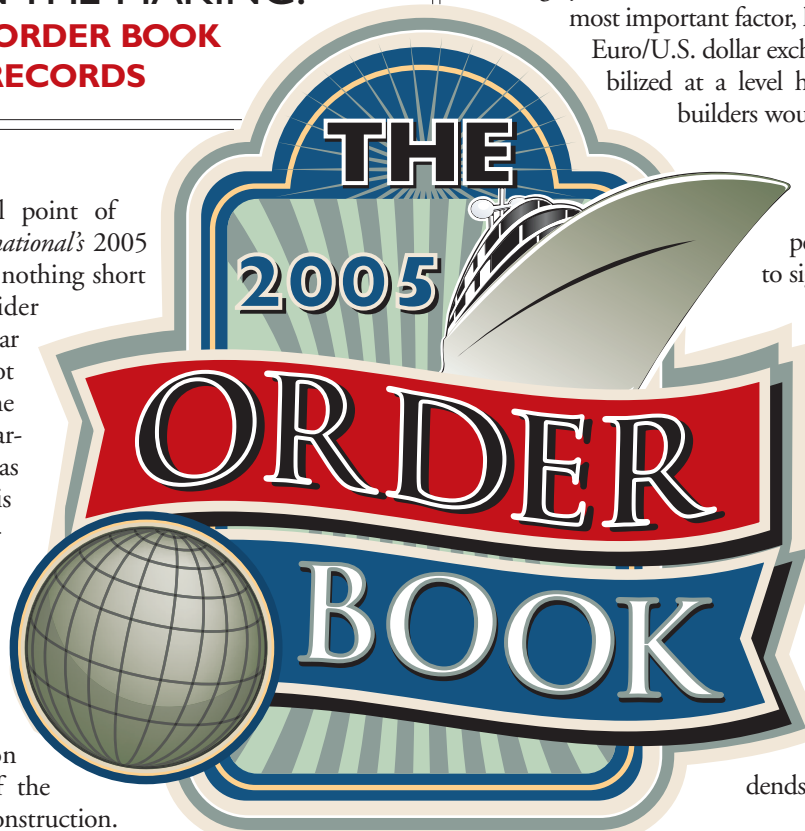

HISTORY IN THE MAKING: 2005 GLOBAL ORDER BOOK BREAKS ALL RECORDS

VICTORY AT SEA

From an historical point of view, *ShowBoats International's* 2005 Global Order Book is nothing short of staggering. Consider that since 1997, the year that 80-foot to 90-foot yachts were added to the database, the global market for luxury yachts has more than tripled. This year's 144-yacht increase over 2004 is almost the same size as the entire global yacht market of 1992. The increase alone represents an estimated U.S. \$1.22 billion jump in the value of the industry's new-yacht construction.

While the numbers speak clearly and eloquently for themselves, understanding the reasons behind the dramatic growth the industry is enjoying is not so easy to fathom. Continued economic growth in the U.S., Europe and Asia is a contributor, as well as an extraordinary level of new

large-yacht orders from the Russian market. Perhaps the most important factor, however, is the stability of the Euro/U.S. dollar exchange rate. Though it has stabilized at a level higher than many European builders would wish, its predictability has allowed companies and consumers on both sides of the Atlantic to adjust their expectations and pricing. Thanks to significant recent investment in their manufacturing infrastructure, Italian production and semi-custom shipyards have increased their efficiency sufficiently to enable them to price their yachts competitively and still retain adequate profit margins. The existing exchange advantage has proven a boon to U.S. builders, who are also investing heavily in infrastructure that they hope will continue to pay dividends in future order books.

BY THE EDITORS OF SHOWBOATS INTERNATIONAL
DATA COMPILED BY BILL ANDO AND MARIA FLETCHER

ITALY STILL LEADS

In 1992, Italy's luxury yacht order book included 33 boats totaling 3,359 feet. This year's increase in Italy's order book alone totals 6,489 feet. Italy is up 32% over 2004 and continues to own bragging rights as the leading luxury yacht-building nation with 249 units and

MY=Motor Yacht SY=Sailing Yacht EX=Expedition Yacht OP=Open Yacht SF=Sportfisher • = New Addition to Global Order Book

27,595 linear feet of boats – or 5.2 miles – under construction. In 1992, Azimut and Benetti were separate companies with a total of five yachts under construction. Today the world's largest builder, the Azimut-Benetti Group has 64 yachts over 80 feet under construction and on order, up 14% (by unit production) over 2004. Back in 1992, Ferretti wasn't even on the luxury yacht radar screen. Twelve years later, the Ferretti Group (including Ferretti, Pershing, Custom Line, Riva and CRN) is ahead of Azimut-Benetti in unit production with 69 yachts, though it remains in second place in overall builder rankings due to 291 fewer linear feet of yachts under construction. Still, the Ferretti Group, thanks to its aggressive introduction of new yacht series, showed a dramatic 78% increase in total 80-foot-plus production over 2004. Showing similar growth – especially in semi-custom production at ISA, its burgeoning new large-yacht facility in Ancona – is the Rodriguez Group, which posted a 96% order increase over 2004.

The United Kingdom, due in part to new model lines at Sunseeker, showed a strong 75% increase in orders. Sunseeker International, with the biggest increase among the industry's major production manufacturers, rose 116% this year and remains fourth in the top-builder rankings.

TOP 10 BUILDER NATIONS

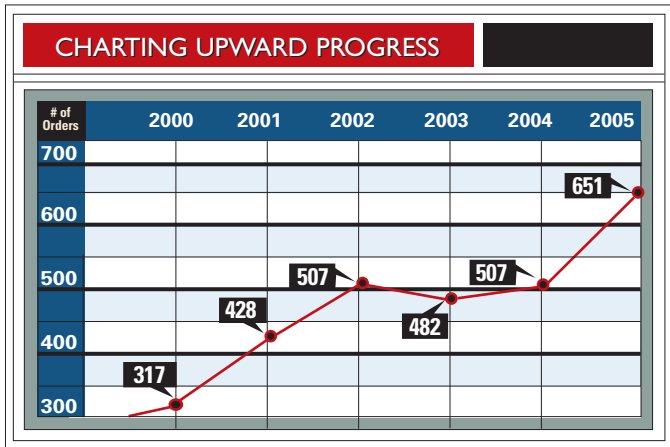

Country	Number of Projects	Total Length	2004 Rank	Average Length
1. Italy	249	27,595'	1	113'
2. United States	97	11,215'	2	114'
3. The Netherlands	48	7,586'	3	158'
4. United Kingdom	58	5,480'	4	94'
5. Taiwan	39	3,661'	6	94'
6. Germany	17	3,461'	7	204'
7. New Zealand	22	2,893'	5	132'
8. China	23	2,513'	-	109'
9. Denmark	15	1,550'	9	103'
10. France	10	1,417'	-	142'

ASIA ON THE RISE

Perhaps the most dramatic increase in the builder nation rankings is in Asia with Taiwan rising one notch from sixth to fifth place and China, in eighth place, making its first top-10 placement. China's 2004 production increase totals 217%, calculated by linear feet. Taken together, the China/Taiwan order book would place them third in the rankings based on unit production, and fourth on the basis of linear feet.

RUSSIAN INFLUENCE

Without question the most dramatic and meteoric consumer market is in Russia. Yachts have become the highest symbol of wealth among Russia's small but ultra-wealthy elite. Several individuals own not one but two or more superyachts. One family has placed an order for five yachts at Sensation Yachts in

New Zealand and another has placed two orders at Burger Boat Company. Russian owners, many relatively new to the market, have a passion for performance and are helping to fuel the rapid growth in the market for offshore or open-style yachts.

Once a class of yacht relegated to the under-80-foot market, open boats comprise the fastest-growing segment in the industry, evidenced by the 256% increase from 25 orders last year to 89 units in 2005. Leopard, Codecasa, Palmer Johnson, Pershing, Baglietto, Mangusta and Sunseeker all are building 100-foot-plus open yachts.

SAILING IS SOFT

The only segment of the market showing weakness for 2005 is sailing yacht construction. Overall, the segment fell 5%, a total of three orders off from 2004. Sailboats from 90 feet to 99 feet stayed even at eight orders, while sailing yachts from 100 feet to 119 feet increased 77% to 16 orders. All the other segments of the sailboat market, including the 150-foot-plus market, decreased. Expedition-style yachts, which had enjoyed a steady increase in popularity in recent order books, remain constant in 2005 at 20 orders.

ORDERS BY LENGTH & YEAR

Length	Sailing Yachts					Motor Yachts				
	'01	'02	'03	'04	'05	'01	'02	'03	'04	'05
80'-89'	16	17	18	18	13	103	141	114	122	194
90'-99'	5	10	8	8	8	36	44	46	59	63
100'-119'	17	14	14	9	16	95	103	100	103	129
120'-149'	16	16	15	13	12	68	74	69	70	103
150'+	10	15	14	14	10	62	73	84	91	103
TOTAL	64	72	69	62	59	364	435	413	445	592

SIZE MATTERS

The 59% increase in the 80-foot to 89-foot motor yacht segment, coupled with the launch of several enormous yachts, including numerous 230-foot-plus yachts in Holland, Germany, Greece and England, helps explain why average size of yacht under construction in the global order book fell from 122.4 feet

MY=Motor Yacht SY=Sailing Yacht EX=Expedition Yacht OP=Open Yacht SF=Sportfisher = New Addition to Global Order Book

to 116.7 feet, or 4.7%. The impact of launching two monster-size yachts is evident in Lürssen's numbers. The German builder's 2005 order book grew by three contracts to a total of 10 and is up 17.9% in linear feet of construction. Yet its average size of yacht under construction fell from 284 feet in 2004 to 234 feet this year. Still, Lürssen remains at the top of the builder rankings by average size of order.

ORDER BOOK GROUND RULES

The purpose of this listing is to provide a body of data - compiled in a systematic fashion at the same time every year - showing the scope and breadth of economic activity within the luxury yacht community. The cutoff for the order book is September 1, although shipyards are permitted to add new orders that materialize prior to October 1. Every effort is made by the editorial staff of *ShowBoats International* to assure the accuracy of the data. Whenever possible, the data is cross-referenced with other industry sources. However, collecting this information in an unregulated international industry is difficult at best. Nevertheless, the editors believe this order book listing and analysis is an accurate reflection of existing economic conditions in the luxury yacht industry. The editors will continue to update and clarify this listing as necessary during the year when new information becomes available.

CUSTOM BUILDER RANKINGS

Editor's note: It is always problematic to distinguish between custom and semi-custom (or series production) yacht manufacturers. Some companies, such as Benetti, build yachts on both a production and a custom basis. Other companies, particularly yards manufacturing large fiberglass yachts, build custom interiors (and even superstructures) in a series production hull. In making their deliberations for the top custom builders ranking, the editors drew the distinction between semi-custom and custom production based on their knowledge of the builder's willingness to substantially customize individual projects, particularly their willingness to move bulkheads and install owner-specified equipment. □

TOP 15 CUSTOM BUILDERS				
	Yard Name	Number of Projects	Total Length	Average Length
1.	Benetti	34	4,569'	182'
2.	CRN/Custom Line	27	3,243'	120'
3.	Lürssen	10	2,341'	234'
4.	ISA	14	1,886'	135'
